

CLINICAL / MEDICAL DIRECTOR. LEADING INFERTILITY PROVIDER

Origin Fertility Care, www.originfertilitycare.com Northern Ireland's leading private fertility clinic, has an immediate vacancy for an experienced and dynamic Clinical / Medical Director. Part of the Belfast-based private healthcare group, 3fivetwo Healthcare www.3fivetwo.com, Origin currently performs approximately 500 cycles of IVF and ICSI annually and is embarking on a further level of expansion and growth.

The ideal candidate will be an experienced IVF professional, already working in the field of reproductive medicine. Full GMC registration, MRCOG or equivalent and a UK work-permit (if appropriate) are essential, with clinical and general management experience a distinct advantage. The candidate should have successfully completed the subspecialty training programme in reproductive medicine of the RCOG or equivalent.

This is a permanent position, although a fixed-term contract may be possible. Salary will be commensurate with qualifications and experience and will include a performance related element. An attractive benefits and relocation package is available.
